

**SRI G. B. SHANKAR RAO:—** This building belongs to the Ex-Sangli State. After the merger of this area with Karnataka, the Karnataka Government became the owner of the building. But the building was in a very dilapidated condition-about to be collapsed. Then the P.W.D. authorities thought it was unsafe for the children. So the remaining portion was dismantled. As you know the policy of the Government in the matter of construction of primary school buildings is that the Government will give Rs. 4,500 per room and the rest of the cost has to be borne either by the local bodies, Municipalities or panchayats or local leaders who come forward to supplement the construction of class room. We ask the Municipalities and other bodies to make their contribution for this purpose.

**MR. SPEAKER :—** The Minister's reply must be very brief.

**SRI G. B. SHANKAR RAO:—** If the local leaders do not come forward to supplement the rest of the cost of the building, we request the Municipalities whether they could take up that work. If the Municipalities come forward, the land will be leased to them on which they could construct the building to house the children and the Government will pay the grant to the Municipality.

**SRI B. B. SAYANAK :—** There is a tussle between the Revenue department and the Education department. The Revenue department is not handing over this site to the Education department. That is why they are not going to construct the school building.

**SRI G. B. SHANKAR RAO:—** That is between departments but the Government is one. If there is any difference between departments, we shall try to solve it and hand over the land to them.

**SRI B. B. SAYANAK :—** For the last 6—7 years there is no building. This is the biggest school in that area. If there is no building what will be the fate of school children? Therefore I request the Government to take up the construction of the building immediately.

**SRI G. B. SHANKAR RAO :—** That will be done.
